UI UX Designer && Front-end developer

I am a front-end developer with over 3 years of experience of working on web applications based on object-oriented programming (OOP) from conception to delivery.

Also, I am a creative UI / UX Designer more than 1 year of experience in innovative design and development with the ability to turn ideas into attractive and effective designs.

Additionally, I took a training program in Database using Database management studio DBMS (My SQL - SQL Server) at DataOcean company in Jeddah.

Goal: I intend to become a full-stack web developer by designing the site via Figma tool , (HTML , CSS) and developing it through (JavaScript , PHP and database) frameworks (Bootstrap , React Js) with responsiveness to all screens.
